

An ominous letter of warning from German Naturopath, Anette Lillinger to all of her patients inquiring about the upcoming coronavirus vaccine.

"For all my patients:

I would like to urgently draw your attention to important issues regarding an upcoming Covid-19 vaccination: Over the past 20 years, patients came to me again and again, who had developed symptoms after being vaccinated, which I then had to treat. Of course, such artificially produced symptoms/diseases were always a special challenge in individual cases and somewhat more difficult to treat than the predominant diseases that arise from the nature of the patient, i.e. are of natural origin.

However, because the consequences of vaccination have up to now been mainly based on the already frequently mentioned adjuvants (active substance boosters), whose excretion the body could not cope with in individual cases and therefore developed a corresponding mild to severe symptomatology, a homeopathic therapy in which the individual vital force was stimulated to excrete the toxins from the body was successful in the end and the side-effects of vaccination disappeared, even if it often took many months.

Due to the novel mode of action of the future coronavirus vaccine, however, such healing successes will no longer be possible in the future. For the first time in the history of vaccination, the so-called mRNA vaccines of the latest generation intervene directly in the genetic material of the patient and thus change the individual genetic material, which represents a genetic manipulation – something that has been banned, even considered criminal up to now. This intervention can be compared with that of genetically manipulated food, which is also highly controversial. As much as the media and politicians are currently trivialising the issue and even unreflectively calling for such a new type of vaccination in order to be able to return to normality, such a vaccination is problematic in terms of health, moral and ethical issues and also in terms of genetic damage, which, unlike the damage caused by previous vaccinations, will now be irreversible and irreparable.

Dear patients, after such a novel mRNA vaccination, you will no longer be able to have the symptoms of the vaccination cured in any complementary way. You will have to live with the consequences, because they can no longer be cured simply by removing toxins from the human body, just as one cannot cure a person with a genetic defect such as Trisomy 18 or 21, Klinefelter syndrome, Turner syndrome, genetic heart diseases, haemophilia, cystic fibrosis, Rett syndrome etc.), because the genetic defect remains once present forever!

In plain language, this means: Should you develop a vaccination symptomatology after an mRNA vaccination, neither I nor any other therapist will be able to help you causally because the vaccination damage will be genetically irreversible.

In my opinion, these novel vaccines represent a crime against humanity that has never before been committed in such a broad form in history.

As Dr. Wolfgang Wodarg, an experienced physician, put it this way yesterday: In reality, this "promising vaccine" for the vast majority of people is, in fact, a forbidden genetic manipulation!"
